

Authors, Titles, and Subjects in the *Marine Fisheries Review* 59(1-4), 1997

A-B

- Abalone
 People's Republic of China mariculture, 4:12
- Alopias superciliosus*—see Shark, bigeye thresher
- Alopias vulpinus*—see Shark, thresher
- Ammodytes hexapterus*—see Sand lance, Pacific
- Argopecten irradians*—see Scallop, gulf
- "An assessment of fishery yields from the East China Sea ecosystem," by W. Z. Chen, Y. Z. Zheng, Y. Q. Chen, and C. P. Mathews, 4:1
- "Assessment of the distribution and abundance of coastal sharks in the U.S. Gulf of Mexico and eastern seaboard, 1995 and 1996," by Mark Grace and Terry Henwood, 4:23
- Balanus* sp.—see Barnacles
- Barnacles
 Mexican oyster spat competitor, 3:5
- Bering Sea, eastern
 groundfish bycatch management
 chinook salmon savings area, 4:18
 chum salmon savings area, 4:18
 domestic fisheries, 1985-88, 4:17
 domestic fisheries, 1988-97, 4:17-19
 herring savings area, 4:17
 Japanese fleet bycatch allocation allowance, 4:16-17
 joint-venture operations, 4:17
 pre-Magnuson Act, 4:15
 prohibited species, 4:15
 red king crab savings area, 4:18
 regulated foreign fisheries, 4:15-16
 timeline, 4:16
 winter halibut savings area, 4:15
- "Blue crab, *Callinectes sapidus*, trap selectivity studies: Mesh size," by Vincent Guillory and Paul Prejean, 1:29
- Bluefish
 drift gillnet fishery, 1:19, 20
- Boreogadus saida*—see Cod, Arctic
- Bowerbankia* sp.—see Bryozoa
- Brachidontes* sp.—see Mussels
- "A brief history of bycatch management measures for eastern Bering Sea groundfish fisheries," by David Witherell and Clarence Pautzke, 4:15
- Bryozoa
 Mexican oyster spat competitor, 3:5
- Bycatch
 Gulf of Mexico shrimp fishery, 3:23, 4:33
 high-seas driftnet fishing, 3:41
 management, eastern Bering Sea, 4:15-22
 timeline, 4:16
 shark drift gillnet fishery, 1:19-28
 tuna fishery, central-western Pacific Ocean, 3:38

C

- "The California red sea urchin, *Strongylocentrotus franciscanus*, fishery: Catch, effort, and management trends," by Peter E. Kalvass and Jon M. Hendrix, 2:1
- Callinectes sapidus*—see Crab, blue
- Capelin
 spotted seal prey, 1:7
- Carcharhinus acronotus*—see Shark, blacknose
- Carcharhinus altimus*—see Shark, bignose
- Carcharhinus brachyurus*—see Shark, narrow-tooth
- Carcharhinus brevipinna*—see Shark, spinner
- Carcharhinus falciformis*—see Shark, silky
- Carcharhinus galapagensis*—see Shark, Galapagos
- Carcharhinus isodon*—see Shark, finetooth
- Carcharhinus leucas*—see Shark, bull
- Carcharhinus limbatus*—see Shark, blacktip
- Carcharhinus longimanus*—see Shark, whitetip
- Carcharhinus obscurus*—see Shark, dusky
- Carcharhinus perezii*—see Shark, Caribbean reef
- Carcharhinus plumbeus*—see Shark, sandbar
- Carcharhinus porosus*—see Shark, smalltail
- Carcharhinus signatus*—see Shark, night
- Carcharodon carcharias*—see Shark, white
- Carlson, J. K.—see Trent et al.
- Catch
 brown shrimp in Mexico, 2:18-24
 shark drift gillnet fishery, 1:19-28
 tuna fishery, central-western Pacific Ocean, 3:36-38

"The 1996 U.S. purse seine fishery for tropical tunas in the central-western Pacific Ocean," by Atilio L. Coan, Jr., Gary T.

This statement is required by the Act of August 12, 1970, Section 3685, Title 39, U.S. Code, showing ownership, management, and circulation of the *Marine Fisheries Review*, publication number 366-360, and was filed on 28 October 1997. The *Review* is published quarterly (four issues annually) with an annual subscription price of \$8.50 (sold by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402). The complete mailing address of the office of publication is: NMFS Scientific Publications Office, NOAA, 7600 Sand Point Way NE, BIN C15700, Seattle, WA 98115. The complete mailing address of the headquarters of the publishing agency is: National Marine Fisheries Service, NOAA, Department of Commerce, 1335 East-West Highway, Silver Spring, MD 20910. The name of the publisher and editor is Willis Hobart and the managing editor is Jacki Strader; their mailing address is: NMFS Scientific Publications Office, 7600 Sand Point Way NE, BIN C15700, Seattle, WA 98115. The owner is the U.S. Department of Commerce, 14th St. N.W., Washington, DC 20230; there are no bondholders, mortgages, or other security holders. The purpose, function, and nonprofit status of the organization (agency) and the exempt status for Federal income tax purposes has not changed during the preceding 12 months. The extent and nature of circulation is as follows: Total number of copies (A) (average number of copies of each issue during the preceding 12 months) was 1989 and the actual number of copies of the single issue published nearest to the filing date was 1903. Paid circulation (B) is handled by the U.S. Government Printing Office, Washington, DC 20402, and the total number printed for their sales (mail subscriptions and individual sales) was 300 for both the average number of copies each issue during the preceding 12 months and the actual number of copies of the single issue published nearest to the filing date. Free distribution (D) by mail, carrier, or other means; samples, complimentary, and other free copies (average number of copies each issue during the preceding 12 months) was 1689 and the actual number of copies of the single issue published nearest to the filing date was 1603. The total distribution (E: sum of C and D) (average number of copies each issue during the preceding 12 months) was 1989 and the actual number of copies of the single issue published nearest to the filing date was 1903. There were no copies not distributed or returned from news agents (F). The total (G: sum of E and F) is equal to the net press run figures shown in Item A: 2008 and 1926 copies, respectively. I certify that the statements made by me above are correct and complete: (Signed) Willis Hobart, Publisher.

 “The status of queen conch, *Strombus gigas*, research in the Caribbean,” by Allan W. Stoner, 3:14
 “Stocking, enhancement, and mariculture of *Penaeus orientalis* and other species in Shanghai and Zhejiang provinces, China,” by J. Xu, M. Xia, X. Ning, and C. P. Mathews, 4:8
 Stoner, Allan W., “The status of queen conch, *Strombus gigas*, research in the Caribbean,” 3:14
Strombus gigas—see Conch, queen
Strongylocentrotus franciscanus—see Urchin, red sea
Strongylocentrotus purpuratus—see Urchin, purple sea
Stylochus sp.—see Flatworm

T-U-V

Thais haemostoma—see Snails, boring
Theragra chalcogramma—see Pollock, walleye
Thunnus albacares—see Tuna, yellowfin
Thunnus obesus—see Tuna, bigeye
 Trent, L., D. E. Parshley, and J. K. Carlson,
 “Catch and bycatch in the shark drift gillnet fishery off Georgia and East Florida,” 1:19
 Tuna, central-western Pacific Ocean
 bigeye
 catch, 3:36, 38
 bycatch, 3:38
 catch rates, 3:38
 fishing area, 3:36
 fishery
 monitoring, 3:35–36
 performance, 3:39
 skipjack
 catch, 3:36, 38
 South Pacific Regional Treaty, 3:34
 yellowfin

catch 3:36, 38
Tursiops truncatus—see Dolphin, bottlenose
 “Untrawable bottom in shrimp statistical zones of the northwest Gulf of Mexico,” by Jason Link, 4:33
 Urchin, purple sea, 2:1
 Urchin, red sea
 catch patterns, 2:3
 northern California, 2:3–5
 southern California, 2:5–7
 economic trends, 2:9–10
 effort patterns, 2:7–8
 northern California, 2:8
 southern California, 2:8–9
 management, 2:11–15
 growth, 2:11
 history, 2:13–15
 stock assessment, 2:11–13
 survival, 2:11
 northern California fishery area, 2:2
Urosalpinx perrugata—see Oyster drill, Gulf Vessels
 California sea urchin fishery, 2:1
 oyster industry, eastern Mexico, 3:6–8
 shark driftnet fishery, 1:20
 shark survey, 4:24–25
